

Summary

A web app that manages contact tracing for clubs in line with government guidelines. The app provides verification and tracing in a fast and simple manner.

The app is new and has been tried and tested by over 100 sports clubs. Lisnagarvey HC and Coleraine FC have each registered over 1,500 people on the app within the first month of returning to sport with no difficulties.

How does it work?

The player or person coming to the club registers on their own phone. This occurs every time they are coming to the club and takes less than 30 seconds. They **must** answer the COVID questions each time and must register on the day of attendance. No login is required to register.

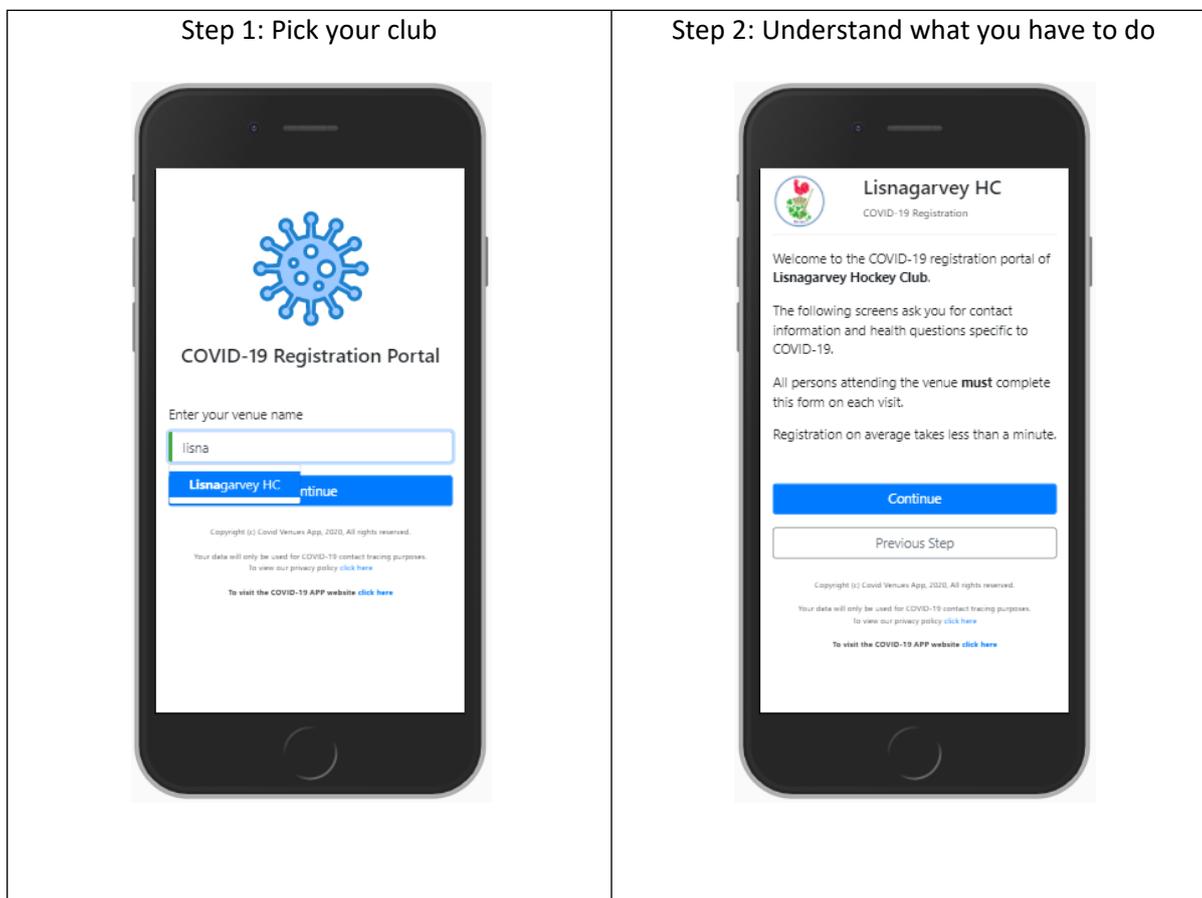

The COVID officer(s) then digitally verifies attendance at the club. They login so they can see who has registered. Verifying takes less than a second per person. Multiple people can verify at the same time should larger groups (e.g. juniors) be attending.

Spectators and parents also must register when entering the club. This can be done before through the web app or directly at the entrance using the QR Code.

Should anyone later require tracing it is easy to search the data to find who was at the club at the designated date time.

Because it is a website it works on **any** phone, computer, iPad, etc. that has an internet connection.

User Journey: Player Registration

Step 3: Enter your details

Lisnagarvey HC
Step 1: Your information

Full Name
Tom Smith

Section
Adult

Attendance Date
26 Jun 2020

Phone
0798 353 9487

E-mail
tsmith@gmail.com

Address
9 MOIRA ROAD
Belfast
Postcode
BT2 8BG

Step 4: Answer the COVID Questions

Is anyone in your household currently self-isolating or has COVID-19?
No

Do you believe you may have COVID-19?
No

Have you had any of the following symptoms of COVID-19 in the past 14 days?

High temperature (over 37.5C)?
No

Loss of sense of smell and/or taste?
No

New continuous cough?
No

New unexplained shortness of breath?
No

Submit Registration

Step 5: Show Outcome

Lisnagarvey HC
Step 3: Registration Complete

Registration completed

Full Name
Tom Smith

Attendance Date
26 Jun 2020

You have answered "No" to all of the COVID-19 questions. You **may** train or play with your team on the date specified above.

Please follow all "Return to Play" protocols when travelling to and from the ground and when partaking in training sessions.

Home

Register Another

NOTE:

Your phone can save your personal details and COVID question answers to make subsequent registrations faster.

Each club can use its own logo to help give confidence that the player is on the right page. The logo changes automatically depending on the club you select on the first screen.

You do **not** need to login to register.

You can register again if required on the same day.

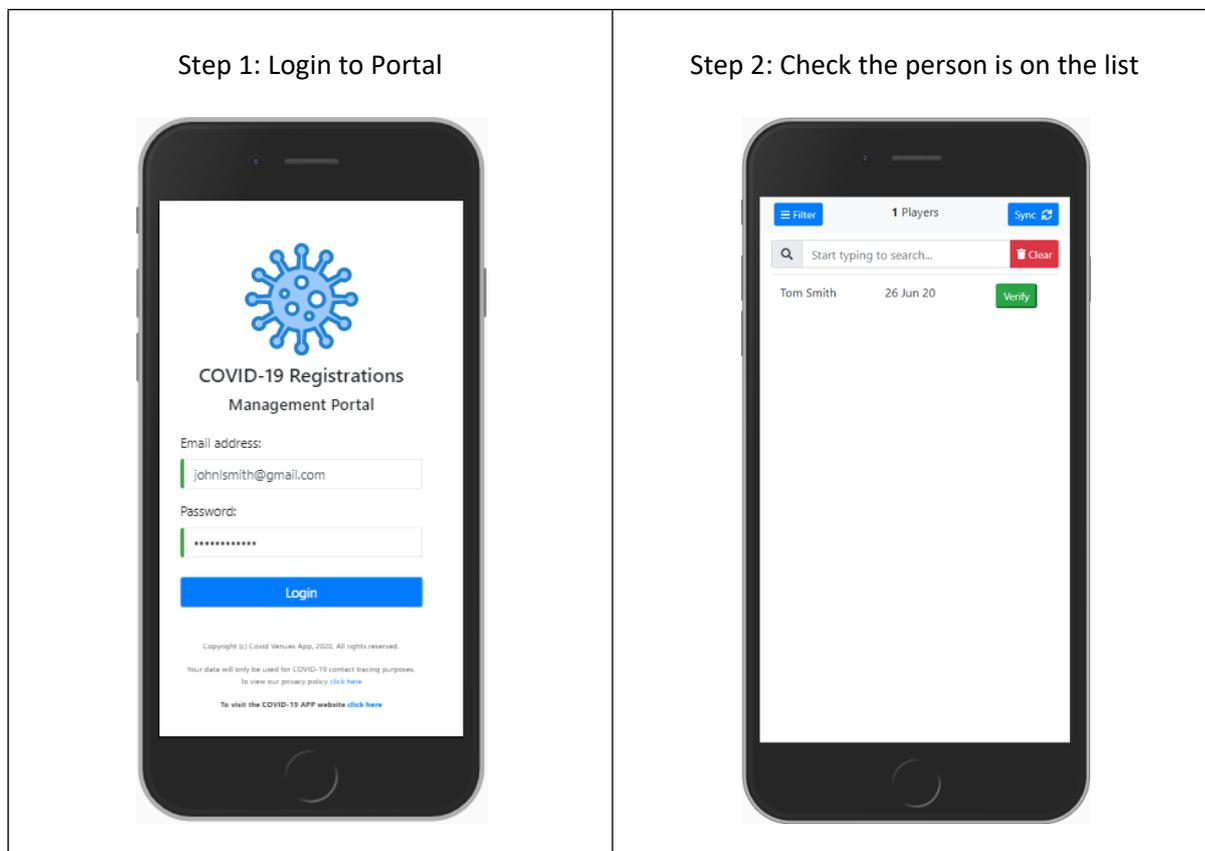

QR Code

Each club will also receive a QR code which will bring the person directly to Step 2 of the registration process when scanned (i.e. their club registration portal). This can be useful to have at entrances or on social media. You can give this a try by scanning the QR code below for Lurgan Cricket Club:

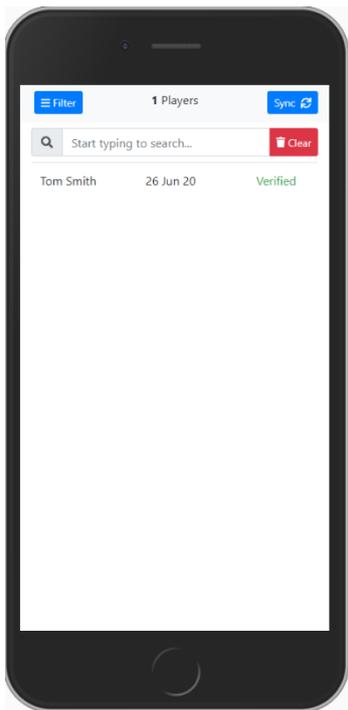

User Journey : Verify Attendance by the COVID Officer

The COVID officer (or designated club helpers) can verify attendees at the club entrances with the touch of a button.

Step 3: Verify their attendance

NOTE:

You must login to access the management part of the application.

Only attendees at the club for that day are shown by default.

Multiple people can update the “Verify” status on separate phones if needed (e.g. large groups).

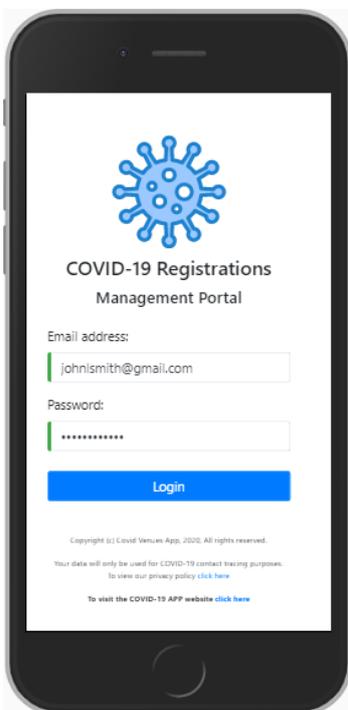

You can only see the data for **your** club when you login.

Upon verification, the date and time when the button is pressed is stored in case it is needed later.

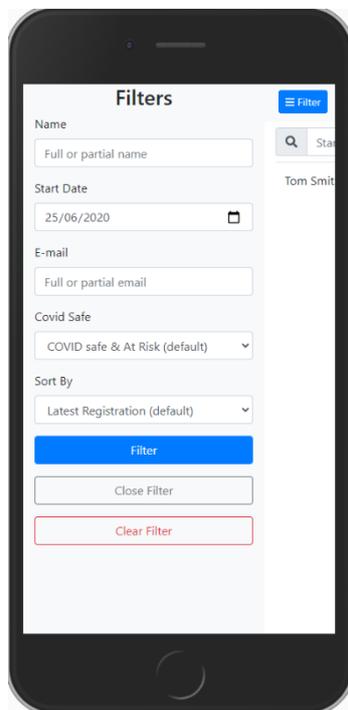

User Journey : Track and Trace

As an example, I will show the attendees at Lisnagarvey HC on Thursday 25th June.

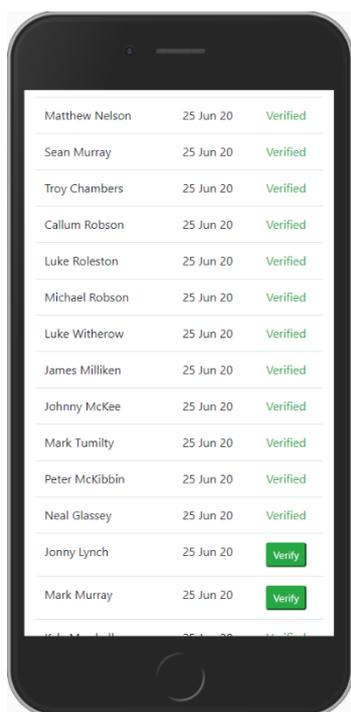

Step 1: Login to Portal

Step 2: Filter by 25th June

Step 3: See who was there

NOTE:

You can filter by date, verification status, player name, etc. This only shows one way of doing it.

You can **only** see the data for your club when you login.

I have shown this on a phone but you can get a larger view on a bigger device (laptop, iPad). This automatically shows more data.

Players in “Green” answered “No” to all the COVID questions.

Players in “Red” answered “Yes” to one or more of the COVID questions and should be refused entry (fortunately no one in this list).

What will it cost?

The price is a **one-off** fee of £100 / €110 for 12 months to support running costs per club.

What do clubs have to do?

Sign up via our website or get in touch with our sales team. See contact below.

Once you have signed up, you can email your club logo, privacy policy and designated Covid Officer to covidvenuesapp@gmail.com.

We then register you on the portal within 24 hours, your club appears in the “list of clubs” and you are good to go. We subsequently will email out to the COVID contact the login / password details for that club.

Each club will receive a unique QR code which will bring the user directly to their club’s registration portal when scanned.

Data Protection

The database is encrypted at rest. This means that the data is secure even in the unlikely event that the server is breached. You cannot see the data without the access keys. In addition, your club’s privacy policy can be viewed on the registration page so that your members are comfortable. Our privacy policy can be found on our website at <https://covid.oqlist.co.uk/privacy-policy>.
